Two Major Projects

Community Vitalization Project
In the face of fallout from the COVID-19 pandemic, concerns are arising that relationships between people are becoming ever weaker than before. Against this backdrop, we launched the “Community Vitalization Project” in the fiscal year ended March 31, 2021, with Meiji Yasuda employees advocating for connecting “people,” “workplaces” and “community.” In this way, we help people of communities in which we operate maintain ties supported by heartfelt relationships as part of our cross-organizational initiatives to help address issues society is now confronting.

For example, in the same fiscal year, we promoted the “Employee Giving Campaign to Support My Local Community” and donated a total of ¥520 million to 1,210 entities nationwide, including municipalities and medical institutions in need of financial assistance due to fallout from the COVID-19 pandemic, via a matching-gift program that combined employee donations and matching funds from the Company.

Also, we acted in collaboration with J.League to promote the “Local Aid Campaign with J,” launching the “Website Introducing Local Specialties” through which players and other representatives from J clubs introduce the appeal of local specialties and sightseeing hotspots.

No Community Member Should Be Left Isolated
Today, social atomization is becoming a major social issue. For instance, a certain survey estimates that nearly 9% of the domestic population have no opportunities for daily conversations with others.

We are worried that the weakening of social connections may possibly deprive regional communities of their vitality and, therefore, aspire to advocate for connecting people and community, helping people of regions where we operate maintain ties supported by heartfelt relationships. This is why Meiji Yasuda is committed to promoting the “Community Vitalization Project.”
