## The "Company with Committees" System

Meiji Yasuda Life is adopting the "Company with Committees" system to strengthen its management supervision functions and increase transparency.

The system enhances corporate governance by making a clear institutional separation between management supervision functions and executive functions. It also promotes greater transparency in management by

increasing the number of outside directors and putting them in the majority.

The Nominating, Audit, and Compensation Committees comprise three or more directors - a majority of them outside - selected by decision of the Board of Directors.
