Environmental Policy

In line with its management philosophy, “Peace of Mind, Forever,” Meiji Yasuda considers the preservation of the Earth on which people can live with peace of mind to be a universal and crucial issue for humanity. Accordingly, we strive to contribute to the creation of a sustainable society by ensuring that every aspect of our business operations harmonizes with the global environment.

1. Promotion of Environmental Protection Initiatives

In the course of engagement in the life insurance business, we will give due consideration to the environmental impact of our operations and strive to curb global warming and prevent environmental pollution. Furthermore, we will endeavor to help resolve environmental issues through our business activities.

2. Effective Utilization of Resources and Energy in Business Activities

To reduce environmental burden attributable to our business operations, we will strive for the effective utilization of resources and energy, by promoting such initiatives as resource saving, energy saving and resource recycling as well as the purchase of environmentally friendly products.

3. Compliance with Environment-Related Laws and Regulations

We will comply with laws and regulations associated with environmental protection in addition to upholding environment-related agreements, and guidelines agreed upon by the Company.

4. Social Contribution via the Enhancement of Environmental Awareness and Engagement in Activities in Regional Communities

We will strive to ensure that this policy is embraced by all Meiji Yasuda employees to help them raise their awareness regarding environmental protection. We will actively join environmental protection activity such as to participate in and support activities in regional communities, with the aim of contributing to the creation of a flourishing community.

5. Ongoing Improvement and Updating of Environmental Initiatives

We will strive to improve our initiatives on an ongoing basis by verifying their status compared with defined environmental targets and implementing necessary revisions.
